1. Most helpful TA I've ever had
----
2. Extremely helpful TA, wants to help us learn more than the professor does. Better than the professor at teaching the material and held his own review sessions for the whole class at this own will that were incredibly helpful. High Praise for Nir as a TA.

3. Half the reason I got an A in this notoriously hard class. Nir's willingness to teach material and content the professor did not, as well as his explanations of not only the process but also the intuitions are some of his most prominent traits. Nir went above and beyond what any TA has done to help students in his class and I believe that can be reflected by the success of me and my fellow peers

4. The review sessions for exams and office hours for the homework were extremely helpful, since the material was difficult and we spent very little class time learning about how to do the problems. All of the explanations provided were clear and very helpful as well.

5. It was a little rough at first getting through all the problems, but he got a lot better near the end of the semester. Big improvement and I could appreciate that he was trying. It was a lot of material to get through. Good explanations of the work,generally.

6. Thanks for all the HW help Nir and your review sessions are awesome!

7. Nir was incredibly helpful. He was always available to help in my times of need in the class. His explanations helped me understand the material more than the professor's own explanations.

8. Nir was really passionate about not only the subject matter but also me doing well in the class and he went above and beyond TAing for this class. I am graduating this semester and throughout my entire time at UT, he has been the best TA that I haveever had. Keep up the good work Nir!
